

Coast & Country's Staff Savings Scheme

We are encouraging employees to save by working with the Redcar & Cleveland Money Tree Credit Union. From March 2010 employees can save through monthly deductions from their salary paid directly to the credit union.

Savings taken direct from your salary can assist when managing money and help with planning for future events or emergencies.

The Credit Union also provides access to affordable borrowing and offers a secure alternative to high street or high interest loans and/or doorstep lenders.

The scheme is being introduced to employees because we believe that direct deduction from wages will make it easier to save and to borrow.

We work in partnership with Money Tree to promote the credit union to our tenants and know that it is an easy way to save so want to encourage staff to use this facility.

Forms are available on the intranet, in all breakout areas and from Payroll.
